"We were looking for a unique way for our members to go home with a keepsake from our New Year's Dance. Scrapping on the Spot provided a personalized package that everyone enjoyed and the professional and friendly rapport they had with the guests was a great addition to the entire event. Thank you for a job well done!"

Our company was one of 3 vendors providing services at an intimate birthday event. Scrapping on the Spot worked seamlessly with us and the other vendor and incorporated the theme of the party into an amazing collection of memories. Their work is absolutely phenomenal. They are a company I would definitely enjoy working with again.
